Welcome to Woodrobes

Manufacturer of bespoke fitted furniture for bedrooms and home offices.

Investing in a new bedroom is quite a significant decision, one that you will have to live with for many years, so getting it right is essential.

A bedroom you are happy with and comfortable in takes considerable thought and excellent planning.

Many of our customers find it hard to visualise just how their new bedroom will look when finished; if it will have the 'wow' factor and the feel they are looking for.

This is where Woodrobes excels.

Our knowledgeable showroom staff will use their expertise to assist you in choosing the style and colour of your bespoke fitted furniture.

Our showroom staff's many years of experience in guiding and advising customers through the maze of colours, styles and designs. Our planner and designer will visit your home to plan your ideas and make a working design you are happy with. Once colours and layout are finalised, your bespoke bedroom furniture is manufactured locally and when complete, our fitter turns the design into reality.

Our vast and varied range of products provides our customers with combinations of textures, styles, colours and finishes which runs into tens of thousands. To give our customers the best possible choice, we are constantly updating our product range with innovative new styles while embracing and including new colours and finishes when they come onto the market.

Based in the heart of the West Midlands, our state-of-the-art manufacturing facility features the most modern and technically efficient machinery for the production of bespoke fitted furniture.

With an unrivalled reputation for quality, range of products and customer service our company has moved from strength to strength over the past few years.

We offer one of the widest ranges of bespoke fitted furniture manufactured in the UK today and we are proud to say our products are 'Made In England'.

We hope you enjoy looking through the brochure and we hope it helps you to choose Woodrobes for the bedroom of your dreams.

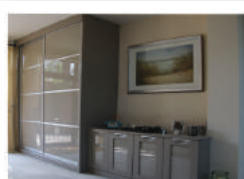

Please check our website for the latest products, styles and colours that have been added to our range: www.woodrobes.co.uk

3-D DESIGN

Using the very latest 3-D design software we are able to create a realistic drawing which will alleviate any questions you may have concerning the finished look of your room.

Our experienced planner and designer will utilise every inch of space to maximise the practicality of your new bedroom so that you wake up for many years to come in the bedroom of your dreams.

3-D design is yet another significant string to our bow and enhances our ability to manufacture products of the highest quality combined with excellent service.

We can render lighting effects which will match the natural lighting of your existing bedroom and we can add spotlights, bedside lamps or under-bridge lights to give the 'feel' of your new bedroom.

SO MUCH MORE THAN JUST BEDROOMS

Although bedroom furniture is the main focus of our attention we have produced several bespoke designs for hallways, living rooms, dining rooms and many other applications.

The image above shows a very special bespoke shelving unit covering the entire inside gable-end of a highly desirable barn conversion near Bridgnorth.

The unit contains high-level and low-level storage cupboards, shelves and a log store plus a hand-made oak library ladder to access the higher shelves.

A superb addition to an outstanding property.

This Rockingham design unit, finished in White Painted Oak with Stone Grey Painted Oak cupboard doors and drawer fronts is truly spectacular shelving.

The angled under-stair bespoke cupboard (left) added a stylish yet functional finish to an impressive staircase.

Another interesting home office design (left) combines shelving and desk units whilst keeping a great feeling of space.

Angled shelving and a free-standing unit complete each end of the workstation with plenty of room for desktop accessories.

The superb hallway set of sliders (right) and matching cupboards (below) illustrates the versatility of our wide product range, suitable for so much more than soley bedroom applications.

Our bespoke dressing tables range from the very traditional (above) to the super modern (right) with a huge choice in between

Let us turn your dreams into reality.

Our expertise combined with your ideas could make something really outstanding and unique to feature in the next issue of our brochure.

Toko Brown Leather desktop.

SLIDER SYSTEM

Our Slider System has been specifically developed by Woodrobes and has proved to be very popular with our customers, who are professionals and demand top quality products at a very competitive price.

Designed in-house and extruded to our own exacting standards, this system will rival any top class system already on the market, using top quality components and offered with soft-close as standard.

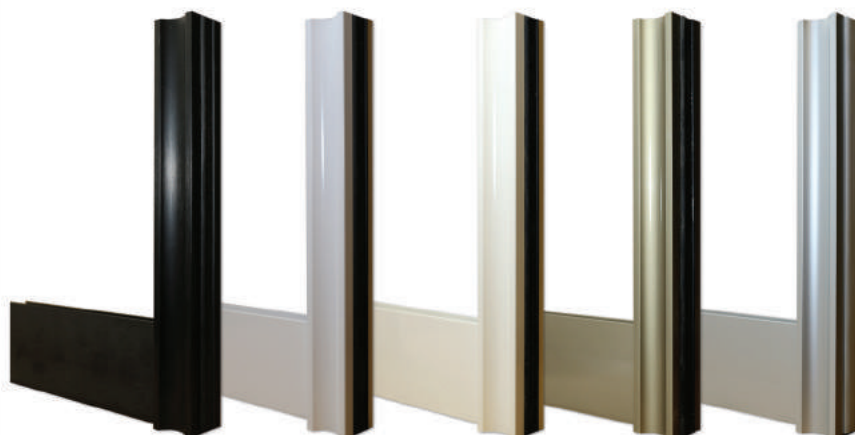

We have taken time to overcome problems traditionally associated with some slider systems in order to supply our customers with a product which is easy to assemble, has a high quality finish and will last for years without time-consuming maintenance.

Made from heavy-gauge, high-quality aluminium with a superb finish, the advantages of the system are immediately obvious. All parts of the system are high spec: heavy duty rollers and soft closers, hidden fixings for the floor guide and precision machined rails for a fantastic finish.

A wide variety of stock 'Lacobel' coloured glass panels and 18mm vinyl panels compliment the product, making it highly versatile and practical; since we make everything in our own factory, we have control of quality and pricing.

Our revolutionary multi-slot rail system allows for 18mm, 6mm and 4mm panels without the need for routing.

Additionally, our slider system can be used not simply for wardrobes but also as a room divider with different 6mm or 4mm panels each side of the slider. Satin anodised aluminium finish is standard. Powder coated colours are also available at extra cost.

Introducing flawless, high-gloss acrylic panels, which are becoming increasingly popular for bedrooms, home office and en-suite bathrooms.

We can now fulfill the growing demand for this high quality board finish, available in solid and metal effects.

Two edge styles are available: Solid or 3-D, both giving a truly superb finish.

The 3-D strip is a combination of the panel colour and a brushed metal finish, giving a contemporary but subtle look.

3-D edging

Solid edging

BEDS

Matching bed bases with integral drawers have become very popular over the last 12 months.

Our bases can have up to four drawer units for double beds and two drawers for single beds, with luxury soft close mechanism and the option of the latest touch-to-open system which needs no handles.

The bed bases offer a stylish and practical storage solution to compliment any bedroom.

Usually in Ascari, Finger Pull or touch-to-open design, they blend beautifully into any room.

Floor level low voltage LED lighting really adds to the effect of a classic bedroom.

As a bespoke item the bed base can be made to suit your requirements.

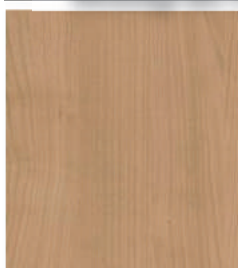

Some customers prefer a higher base, as shown in the image to the right, making it easier to get in and out of bed.

The extra height also gives a deeper drawer system and considerably more storage.

These bed bases are an ideal addition to any bedroom, especially in childrens rooms.
